Source (all data): The Confidence Board, Help Wanted Online.

The Confidence Board's Help Wanted Online (HWOL) measures the number of new, unduplicated job ads, from over 16,000 sources online. HWOL reviews the online job ads regularly to remove any duplicate ads from being reported. Because the placing of job ads represents the intent of employers to hire, the data series serves as a measure of employer demand for labor. Job ads can be classified by such categories as occupation, industry, and geography.
